## ALEXANDRIA PTAC SUMMER CAMP DIRECTORY 2023

### Choosing a Camp

As you consider which camps are the best fit for your child, keep in mind that camps accredited by the American Camp Association (ACA) comply with nationally recognized health, safety, and program quality standards, including these requirements: emergency transportation; first aid facilities and training; aquatic programs supervised by staff who are certified lifeguards; health histories, including immunizations, for all campers and staff; emergency exits from second-floor sleeping quarters.

Other questions to consider include:

- What type of camp are you looking for? Same-sex or coed? Overnight or day camp?
- Should you consider a specialty camp that offers a focused curriculum, such as basketball, or a special-needs camp designed for specific physical or medical disability?
- How long is each session? Would your child prefer attending camp for a week or two – or for an entire summer?
- Is the staff trained in safety, supervision, counseling, problem solving, and other issues important to working with young children?
- Is the price all-inclusive or do extra charges apply for transportation, food service, group pictures, t-shirts, special skills instruction such as horseback riding, and other items?
- Are discounts or scholarships available?
- For day camps, if before and after care is offered to accommodate working parents, who will be supervising children and what activities take place during that time?
- Is lunch and/or a snack served, or do campers bring their own? Will special dietary needs be accommodated?
- If swimming is offered, are lessons included, or is swimming only recreational?
- Does one counselor stay with a group all day? Or are campers free to roam from one activity to another? How is adequate supervision assured?
- Are parents allowed to drop by for visits at any time?

### Resources

The Alexandria PTAC Summer Camp Fair Directory includes camps from all over Virginia and the Washington Metropolitan area. We took personal recommendations from Alexandria parents and used the following resources to help us extend over 200 invitations to area camps specializing in art, adventure, dance, drama, music, science and sports.

- **American Camp Association** - The American Camp Association is a not-for-profit educational body that accredits all types of camps throughout the United States. ([www.acacamps.org](http://www.acacamps.org))

- **Camp Page Guide to Summer Camps** - This website is a national resource guide for traditional summer camps in the United States and Canada with comprehensive camp lists and descriptions of camps by state. ([www.camppage.com](http://www.camppage.com))
- **Frost's Summer Camp Guide** - This website has articles for kids and parents and also has a discount summer camp page. Visitors can customize searches by region or camp specialty. It publishes an annual magazine listing summer camps. ([www.gocamps.com](http://www.gocamps.com))
- **Very Special Camps** – This website is dedicated exclusively to camps that serve individuals with one or more of a wide range of special needs. (<https://www.verypecialcamps.com>)
- **Washington Family Magazine** - Washington Family Magazine is a regional parenting publication distributed throughout the Washington, DC area, including Maryland and Northern Virginia. ([www.washingtonfamily.com](http://www.washingtonfamily.com))
- **Washington Parent Magazine** - Washington Parent Magazine has been serving parents in the Washington Metropolitan Area since 1983, providing family enrichment through education. It publishes annual guides on overnight and day camps. (<https://washingtonparent.com>)

PTAC does not endorse any particular camp. We are always looking for ways to improve our process, so please send suggestions to [CampFair@alexvaptac.org](mailto:CampFair@alexvaptac.org).

This course helps students build skills for reading and interpretation as they work together to write and rehearse a show-stopping performance of their own!</p> <p>In the Language Arts Triathlon course for students entering 5th or 6th grade, students will build advanced grammar, vocabulary, and writing skills by solving puzzles and competing in daily language arts challenges with their classmates. The class culminates in a Language Arts Triathlon—a fun, collaborative competition where students put their skills to the test in a three-event battle of words!</p> <p>In the Mythology course designed for students entering grades 6 or 7, students will have a rare opportunity to develop their writing and problem-solving skills through the worlds of ancient mythologies. Much like real-life scholars and professionals today, students will be tasked to reconstruct a myth based only on material and literary archaeological evidence.</p> <p>Mock Trial is designed for students entering 7th or 8th grade in the fall. In this challenging and fast-paced course, students build crucial reading, writing, and public speaking skills as they participate in a simulated court case based on this year’s class novel.</p> <p>Academic Essay Writing is designed for students entering 8th, 9th, or 10th grade in the fall. Featuring the popular college writing textbook, <i>They Say / I Say: The Moves That Matter in Academic Writing</i>, this course teaches students how to plan, draft, and revise their own academic essays.</p>

In this camp, we will introduce you to the exciting world of computer programming using Scratch, a visual programming language developed by the Massachusetts Institute of Technology (MIT). Scratch makes it easy for anyone to create their own interactive stories, games, and animations. With Scratch, students can bring their ideas to life by using blocks to specify the actions that their program should take. They will start by learning how to use loops to repeat actions, control structures to make decisions, and variables to store and manipulate data. Students will also learn how to use operators to perform calculations and how to use the pen tool to draw and create animations. By the end of this course, students will have the skills to create their own interactive programs in Scratch and be well on their way to becoming coding pros!
